

'CLOSED' international security conference

ZEROCON Sponsor Kit

April 6-7, 2023

Revisit the Workflow

```
1. Call pocsec@pocsec.com to get the exploit code
2. Run pocsec.py on the target machine to get the exploit code
3. Run pocsec.py on the target machine to get the exploit code
4. Run pocsec.py on the target machine to get the exploit code
5. Run pocsec.py on the target machine to get the exploit code
6. Run pocsec.py on the target machine to get the exploit code
7. Run pocsec.py on the target machine to get the exploit code
8. Run pocsec.py on the target machine to get the exploit code
9. Run pocsec.py on the target machine to get the exploit code
10. Run pocsec.py on the target machine to get the exploit code
```

Zer0CON

Zer0Con is POC's 'CLOSED' international security conference. It focuses on finding, analyzing, and exploiting vulnerabilities. Zer0Con aims to have high-level technical presentations.

- It is a high-level and closed conference.
- It only focuses on finding, analyzing, exploiting vulnerabilities.
- Only speakers, attendees, and sponsors will share vulnerabilities information.
- Zer0Con attendees can share various information and establish unique community.
- Training courses also focus on finding, analyzing, exploiting vulnerabilities.
- If you have certain level of ability to find bugs and make exploit code, you will improve yourself through Zer0Con.
